<td>▶ Entire campus or segment(s)</td>
</tr>
<tr>

</tr>
</tbody>
</table>
TIMELY WARNING MYTHS

- You must issue a timely warning for every sexual assault
- You must include the exact location of the assault in that warning
- You must include the details of the case (referral to law enforcement)
- You do not need to include consultations in your policy (e.g. President’s Office, Communications)
TITLE IX RISK FACTORS

- Whether there have been other sexual violence complaints about the same alleged perpetrator
- Whether the alleged perpetrator has a history of arrests or records from a prior school indicating a history of violence
- Whether the alleged perpetrator threatened further sexual violence or other violence against the student or others
- Whether the sexual violence was committed by multiple perpetrators
- Increased risk of future acts of sexual violence under similar circumstances (i.e. pattern of perpetration – use illicit drugs/alcohol at a given location or by a particular group)
- Whether the sexual violence was perpetrated with a weapon
- The age of the student subjected to the sexual violence
- Whether the school possesses other means to obtain relevant evidence (e.g., security cameras or personnel, physical evidence)
RECOMMENDED PRACTICES

- Clear written protocol that:
  - Identifies factors and criteria
  - Identifies decision-makers
- Timely and thorough documentation of available information and reasons for determination
- Coordinated multi-disciplinary team
- Centralized reporting to ensure coordination of personnel and information and consistency in practice
CONFIDENTIALITY
DISTINGUISHING BETWEEN PRIVACY AND CONFIDENTIALITY

- Inconsistent language between federal and state laws
- Students or employees wishing to obtain confidential assistance may do so by speaking with professionals who are obligated by law to maintain confidentiality
- Confidential resources generally include medical providers, mental health providers, clergy, and rape crisis counselors
- Exceptions to confidentiality include:
  - Mandatory child abuse reporting
  - Tarasoff imminent risk of harm to self or others
  - Health professionals based on nature of conduct
  - Other state laws
- Privacy: Need to know, sensitivity, FERPA
Pastoral and professional counselors are exempt from Clery reporting.

Pastoral counselor: A person who is associated with a religious order or denomination, is recognized by that religious order or denomination as someone who provides confidential counseling, and is functioning within the scope of that recognition as a pastoral counselor.

Professional counselor: A person whose official responsibilities include providing mental health counseling to members of the institution’s community and who is functioning within the scope of the counselor’s license or certification. This definition applies even to professional counselors who are not employees of the institution, but are under contract to provide counseling at the institution.

Campus mental-health counselors, pastoral counselors, social workers, psychologists, health center employees, and any other person with a professional license requiring confidentiality are NOT required to report incidents of sexual violence to the school in a way that identifies the student.

Professional counselors and pastoral counselors whose official responsibilities include providing mental-health counseling to members of the school community are NOT required by Title IX to report any information regarding an incident of alleged sexual violence.
### CAMPUS ADVOCATES: TO REPORT OR NOT TO REPORT?

<table>

<th>Title IX</th>

<tbody>
<tr>
<td>Examples of CSAs listed in Handbook for Campus Safety and Security Reporting (2016) include:</td>
<td>OCR gives schools the latitude NOT to require on-campus sexual assault centers, victim advocacy offices, women’s centers, or health centers (“non-professional counselors or advocates”) to report incidents of sexual violence in a way that identifies the student without the student’s consent</td>
</tr>
<tr>
<td>- victim advocates or others who are responsible for providing victims with advocacy services, such as assisting with housing relocation, disciplinary action or court cases, etc.;</td>
<td>- To identify patterns or systemic problems related to sexual violence, a school should collect aggregate data about sexual violence incidents from non-professional counselors or advocates</td>
</tr>
<tr>
<td>- members of a sexual assault response team (SART) or other sexual assault advocates</td>
<td>- Should report only general information about incidents of sexual violence such as the nature, date, time, and general location of the incident and should take care to avoid reporting personally identifiable information about a student</td>
</tr>
<tr>
<td>- Does not require disclosing personally identifying information</td>
<td></td>
